

Luxury Touch

Manage your energy consumption and heating needs with an easy-to-use system, ensuring you control exactly how your home is heated.

- Energy Monitoring function
- QR code data readout function
- Fully Programmable with multiple modes
- User-friendly colour touch screen
- Save energy with your existing heating system by fitting the Luxury Touch.

The latest from Europe

The latest all-in-one clock thermostat for electric floor heating. You can now enjoy the optimal comfort temperature with the lowest possible energy consumption, suitable for all floor coverings.

- Proven energy savings with detailed energy usage cost reports
- Modern, sleek appearance blends well with the latest trends in switchgear
- Easy touch menu navigation
- Compatible with most floor sensors, making it the best choice for new or existing installations
- 5-year battery backup of clock and calendar - you never need to re-set after a power failure
- 3-year factory warranty
- Adaptive function - constantly adjusts heat-up time to reduce energy consumption without compromising on comfort
- Child lock function ensures settings cannot be tampered with, making it ideal for hospitality industry.

Keep energy usage in control

Use your smart phone or tablet to scan the QR code on the thermostat, and view settings, programming and energy usage cost. Reports can also be shared with others, for easy troubleshooting or adjustment.

Optimise your comfort

The electronic thermostat controls the temperature via a sensor placed either externally in the floor or built into the thermostat. Features such as Open Window and Eco Mode further reduce energy costs.

Effortlessly customise your programming

The pre-programmed settings are designed to suit most South African lifestyles, and can be further customised to suit your specific requirements, with various options for daily or weekly schedules, and 4 or 6 event settings.

Colour Display

Unique user interface with new menus and touch-based navigation for easy programming and data readouts. Features include Child Lock and customisable screen display options.

This modern thermostat provides so much more than simple temperature control - it is a personalised and intuitive device designed to give a greater degree of control and comfort in the hands of user.

LUXYTS - Luxury Touch Screen

Innovative control at your fingertips

Your touch screen thermostat has been designed to provide for every eventuality in your home. By offering various modes and features to ensure an easy and convenient way for home owners to adjust and monitor system performance and effectiveness, the Luxury Touch Screen is the ultimate in energy efficiency, comfort and control.

Auto Mode

The room temperature will be regulated according to the programmed event schedule, providing warmth when you want it and economy when it is not required.

Comfort Mode

The room temperature can be temporarily changed for a selected number of hours. The controlled thermostat will then return to the scheduled event program.

Factory-set of events

The thermostat is delivered with factory-set programs:

MONDAY - FRIDAY		Room	Floor
Morning	6:00 - 8:00	Comfort	22 °C / 27 °C
Day	8:00 - 17:00	Economy	18 °C / 20 °C
Evening	17:00 - 22:00	Comfort	22 °C / 27 °C
Night	22:00 - 6:00	Economy	20 °C / 25 °C
SATURDAY - SUNDAY		Room	Floor
Day	6:00 - 22:00	Comfort	22 °C / 27 °C
Night	22:00 - 6:00	Economy	20 °C / 25 °C

ECO Mode

The lowest set point programmed is used as the thermostat temperature until ECO Mode is deactivated.

Boost Mode

Activate a boost period of one hour to rapidly increase the temperature. The thermostat will then return to normal operation.

Manual Mode

The scheduled event program can be cancelled for permanent constant temperature operation.

Holiday Mode

Program a planned holiday period and the thermostat will stop automatically once you leave, to ensure no power is wasted while you are away, and switch on again so that the building is warm and welcoming when you return.

TECHNICAL DATA

Operation Voltage	220-240 VAC
Standby Power Consumption	< 400 mW
Relay: Resistive Load	16 A/3680W @ 230 VAC
Inductive Load	Cos φ = 0.3 max. 1 A
Sensing Unit	NTC 12 kOhm at 25 °C Low voltage, galvanic separated from power supply Compatible with foreign sensors
Regulation	PWM - Pulse Wide Modulation
Ambient Temperature	+5 to +30 °C
Floor Temperature Limit	Max. +20 to +35 °C (+45 °C) Min. +10 to +35 °C (+45 °C)
Temperature Range	5 to 35 °C (room) or 5 to 45 °C (floor)
Battery Backup	Settings: Forever Time, date, consumption meter: 24hrs
IP Class	21

The Luxury Touch thermostat is available mounted on backing plates of various sizes and colours.

Warmup has certified installation specialists nationwide, who will be pleased to provide more details on Warmup products and services. Contact us to discuss your requirements.
