

Enjoy the practicality and beauty of a hard floor, without compromising on comfort. If it wasn't for the lovely warm feeling in the room, you would never know it had been fitted.

Undertile Heating

sustainable heating solutions

Undertile Heating

Unlike conventional heaters that warm one particular spot, Warmup radiant floor heating evenly distributes the warmth throughout the floor and up into the room, leaving no uncomfortable cold spots. This style of heating warms the room up faster and more effectively. The heat is directed where it is most pleasing - the feet - leaving the air we breathe slightly cooler.

The heating solution becomes part of the floor, with no hot or moving parts, with the added benefit of being maintenance-free. Best of all, this clean, silent and odour-free heating solution will not dry out the air or aggravate allergies. For ultimate control and maximum energy efficiency, we recommend the use of an intelligent Warmup thermostat.

Product Range - Standard Cables

UTST0275	1 - 2 sqm	275 W
UTST0380	2 - 3 sqm	380 W
UTST0500	4 - 5 sqm	500 W
UTST0750	6 - 7 sqm	750 W
UTST1000	8 - 10 sqm	1000 W
UTST1250	11 - 12 sqm	1250 W
UTST1500	13 - 15 sqm	1500 W
UTST2000	16 - 20 sqm	2000 W
UTST2500	21 - 25 sqm	2500 W
UTST3000	26 - 30 sqm	3000 W

Product Range - Braided Cables

UTBROJ0275	1 - 2 sqm	275 W
UTBROJ0380	2 - 3 sqm	380 W
UTBROJ0500	4 - 5 sqm	500 W
UTBROJ0750	6 - 7 sqm	750 W
UTBROJ1000	8 - 10 sqm	1000 W
UTBROJ1500	13 - 15 sqm	1500 W

Features

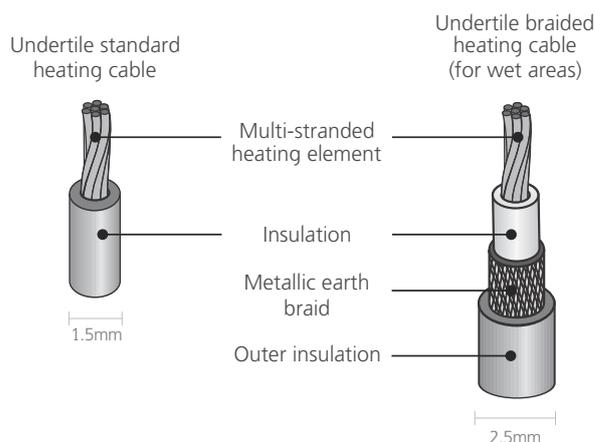

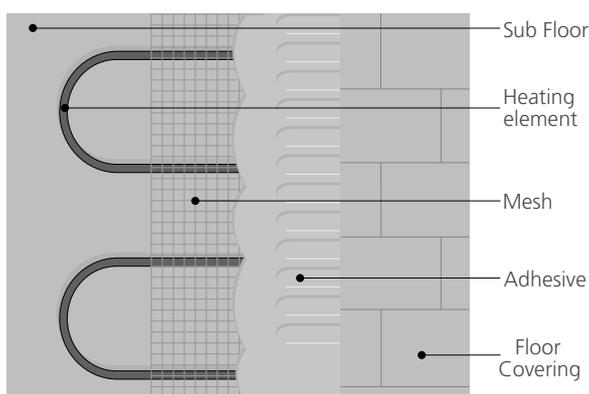

- Tough cable with high electrical and mechanical strength
- Teflon coating is highly resistant to chemical attack
- Extremely thin application has minimal impact on floor levels
- Factory tested at 5000 volts
- 7-strand cable, ensuring maximum flexibility
- Guaranteed concentricity
- Uniform ohms resistance per meter, ensuring even temperatures underfoot
- Designed to never overheat and can be left on continuously.

Applications

- Beneath new or existing floors
- Hard floor coverings: porcelain, ceramic, marble, cement, screed, laminate, vinyl etc
- Soft floor coverings: carpet, carpet tiles. Note: special installation requirements apply
- Seats and walls in showers, saunas, spas, steam rooms, etc
- Animal hatcheries, kennels, sty's, reptile enclosures, etc
- Nurseries and farms - seed trays, hot houses, etc
- Cold room slabs (to avoid frost heave).

System Options

- Loose-lay cable. Supplied wound on a reel.
- Cut & Turn system. Supplied pre-spaced on a resin-coated fibreglass mesh.
- Strip system. Supplied pre-spaced, without the mesh.
- While we recommend coverage of 50-60% of the floor area with tiled surfaces, up to 100% of the available floor area can be covered.

Save up to 50% on the running costs of Warmup undertile heating by installing the system in conjunction with Marmox Insulation Boards. Speak to a consultant for more information.

Warmup has certified installation specialists nationwide, who will be pleased to provide more details on Warmup products and services. Contact us to discuss your requirements.
