sustainable heating solutions

OJ Manual

The OJ Manual is well-known for its reliability, elegance and functional design, making it South Africa's best-seller for the last 20 years.

- Saves up to 25% on running costs, dependent on temperature settings
- Easy to use - set dial to the desired temperature
- For additional control and protection, the maximum or minimum temperatures can be limited
- Available as an air or floor sensing thermostat
- Floor sensor can be extended up to 50m.

Technical info: Flush mount, 230VAC, Load 16 Amps / 3500 Watts, range +5°C/+40°C

Luxury 2

The digital programmable thermostat offers the combination of optimum comfort with minimum energy consumption.

- Saves up to 45% on running costs, dependent on programming
- The pre-set 4 event program can be customised to suit one's lifestyle
- Manual functions offer a temporary or permanent override, without losing set programming
- Compatible with existing floor sensors, making it ideal for renovations
- Dual sensing - allows one to control ambient temperature while limiting minimum and/or maximum floor temperature
- Easy read-out of energy consumption - daily, monthly and annually
- Includes child-lock function, making it ideal for the hospitality industry.

Flush mount, 230VAC, Load 16 Amps / 3500 Watts, range +5°C/+40°C, 5yr memory

Luxury Touch

The new 'All-in-One' 2" Touch Screen thermostat offers a user friendly interface with pre-set programs to provide the highest degree of comfort and control.

- Saves up to 55% on running costs, dependent on programming
- The pre-set program can be further customised to suit one's lifestyle
- A smartphone app allows system monitoring through QR code scanning and online webpage
- Dual sensing - allows one to control ambient temperature while limiting minimum and/or maximum floor temperature
- Compatible with existing floor sensors, making it ideal for renovations
- Manual functions offer a temporary or permanent override, without losing set programming
- Functions like Holiday and Eco-Mode further improve energy savings.

Flush mount, 230VAC, Load 16 Amps / 3500 Watts, range +5°C/+40°C, 5yr memory

The thermostats listed above are available mounted on backing plates of various sizes and colours.

Warmup has certified installation specialists nationwide, who will be pleased to provide more details on Warmup products and services. Contact us to discuss your requirements.
